**Queue'n'dp** manufactures, premium queue management systems designed to organize spaces while maintaining a professional and elegant appearance. Built using high-quality stainless steel and durable components, our queue barriers are ideal for hotels, banks, airports, showrooms, events and commercial spaces.

## Queue'n'dp Managers - Standard Structure

**Queue'n'dp** queue managers are manufactured using heavy-duty metal pipes with a strong weighted base for superior stability. Anti-rust treatment ensures durability, while the smooth lock belt mechanism enables safe, effortless operation in busy environments.

- The Inner Edge of SS Base Plate is Folded to ensure safety, Strength & Aesthetic Look
- Rolling Mechanism is provided to smooth pulling of belt.
- Heavy-duty metal pipe construction
- Strong weighted base for maximum stability, During Pulling the Belt
- Anti-rust treated material & Easy lock belt mechanism (for belt models)
